Certified according ISO 9001

Certified according PED

Certified according ATEX/IECEx

Visual Level Indicators

Specially designed for offshore- and ship-building applications

- **in CuNi10Fe 1,6 Mn**
- **extremely corrosion-proof**
- **100 % sea water resistant**
- **perfectly suitable for**
  - Desalination plants
  - Osmosis plants, also on the seewater side
  - Ballast tanks
  - Seawater cooling plants
- **Operating conditions**

Density	≥ 0.70 g/cm³
Viscosity	150 cSt
Operating pressure	max. 20 bar(g) @ 20 °C
Operating temperature	–40 °C ... +100 °C
Connection distance «L»	max. 5600 mm (one piece execution)
